

# Pumpkin Investigation

Today I introduced a pumpkin to our harvest area. We talked about what it was. Ahmed "It's a pumpkin." "I wonder if it is a vegetable like the others?"

Olivia-Mae "No it's a fruit because it has seeds inside."

We decided to open the pumpkin and look inside.

The children found that there was seeds inside. Huw "Let's plant them and then we can grow our own pumpkins." "Do you think they will grow?" Erin "Yes if we water them." The children took the seeds outside and planted them.
